Profile

Enthusiastic BCA graduate with strong skills in Laravel and full-stack web development. Experienced in creating responsive and dynamic web applications using PHP, Laravel, JavaScript, and MySQL. Passionate about clean code, usability, and modern web technologies. Quick learner, team player, and detail-oriented.

Project

○ TechZone Laptops - E-commerce Website

Built a responsive e-commerce site for laptops with HTML, CSS, JavaScript, and MySQL.

Features include product catalog, user login, shopping cart, and admin order management.

Enhanced user engagement with a "New Launch" page and targeted ads.

○ V-Work - Omniprix Project Management System

Built a Laravel-based web app with role-based access for admins and users.

- Key features: Login, project/task assignment, time logging, and feedback system
- Integrated WhatsApp-style chat with date groupings ("Today", "Yesterday")
- Used Tailwind CSS for responsive design and followed MVC with Eloquent ORM
